1. VCE AND CAREERS EXPO 2016

REMINDER – This annual event is coming up VERY soon. It’s a great opportunity to **start collecting information** and to **talk with representatives** from a wide range of education providers. It is **thoroughly recommended** for student in Years 10-12. Hopefully Year 12 students have already done

a lot of career research and they will find **Open Days** at institutions particularly useful as well. Universities, TAFE and training

providers will be at the EXPO, along with GAP year and study advisers. **When:** Thurs 5 – Sun 8 May; **Where:** Caulfield Racecourse; **Admissions:** \$10 and \$25 per family; **Information:** www.vceandcareers.com.au.

2. WHY RESEARCH CAREERS?

Researching ideas for careers and training while at school is becoming **increasingly important**. With **automation of many jobs** developing rapidly, many unskilled jobs (and some skilled jobs as well) are rapidly disappearing. A willingness to **obtain qualifications** and to **re-train** when necessary will be VITAL for a young person’s future. It is

believed that **at least Certificate III level qualifications** (preferably higher) will be essential to obtain on-going work (ie Certificate IV, Diplomas, Advanced Diplomas and Degrees).

Resilience, determination, and education will be essential to remain in employment.

Remember too, the importance of **Science, Technology, Engineering and Maths (STEM) careers**. These are some of the areas offering **growth and opportunity** in employment. Research shows that **75% of the fastest-growing occupations now require STEM skills**, so we must build a workforce of tech-savvy future employees. Digital literacy is vital for everyone. The digital revolution has led to many new jobs and new ones will develop that we have never begun to think of.

An **excellent website** to check out is www.joboutlook.gov.au. Here you will find details of what **jobs involve, average salaries**, and, perhaps more importantly, the **likelihood of employment growth** in that job.
