2. WHERE CAN I STUDY PHYSIOTHERAPY? Physiotherapy is a popular choice of career, with many aspiring physiotherapists hoping to become sports physiotherapists. The reality is of course, that many physiotherapists work in other settings such as hospitals, community health centres, in mental health, and in rehabilitation, often with elderly patients. In Victoria, physiotherapy is taught at La Trobe, Melbourne and Monash universities, and, from 2017, at Australian Catholic University (ACU) in Ballarat. The ATAR required for entry to physiotherapy is very high due to the popularity of the course, and to the fact that places are limited. La Trobe uses the ATAR for selection, Monash uses the ATAR and an interview, while at Melbourne, as with many of their degrees, physiotherapy is studied as a post-graduate degree. Applicants for Melbourne must have completed an undergraduate degree with human anatomy and human physiology subjects.

The aim of ACU offering physiotherapy in Ballarat is to help tackle the shortage of healthcare professionals in the Ballarat region by offering local training opportunities for up to 50 students. Purpose-built facilities will be available on campus and there will be access to laboratories, hospitals and health services in the region. Prerequisites for the ACU course are: Units 3 and 4 – a minimum study score of 30 in English (EAL) or 25 in any other English, and a minimum study score of 25 in one of Biology, Chemistry or Physics.
