# Principal's Report

The building program has been a massive improvement in the learning facilities for our students and staff. I would like to acknowledge the significant effort that our staff member Michael Suckling and School Council member Matt Row have put into ensuring that we have the best outcome possible for our school community, and also for supporting me in the construction process. Our builders, TS Constructions, have also been committed to ensuring a quality product and have been fantastic to work with. I know that the lack of hard court areas has been a challenge for our students over the winter period, and I am so thankful to see them now enjoying the spaces around the building and accessing the new classrooms.

Another wonderful achievement this year was our school production. With the theme around dementia bringing a tear to the eye of many in the audience, it was a proud moment to have our students portray the challenges of a loved one experiencing this illness with empathy, humour and music.

Our partnership with Burra Foods continues to flourish and, not only have their staff supported our students this year, we have supported their executives to learn Chinese. This initiative came out of the Broadening Horizons program in Year 8, where students identified this need and sought to develop a solution.

Our teacher and support staff have again worked incredibly hard to develop our teaching programs and create a positive and productive learning environment for our students. The School Council have provided strong advocacy for parents together with myself and school leadership. In addition, this year we have been so fortunate to have the support of a dedicated group of community members who have been involved in a range of community engagement activities. On behalf of the school community I would like to thank them for the energy and passion that they bring to developing the knowledge, skills and capabilities of our students.

## Assistant Principal's Report

This year's word should be 'Innovative'!

Teachers, students and parents have had a variety of new experiences at KSC and we are very proud of our achievements.

We have successfully started online continuous reporting to our school community about academic achievements and Effective Learner Behaviours. Teachers are relentlessly designing learning experiences to ensure students' engagement is active. We have had more focus on our Instructional Model and added some learning about Emotional Intelligence to our portfolio.

We now have a Community Parent Engagement group. A school cannot survive without the support of parents and we are lucky to have amazing parents at KSC; Parents that are able to be hands-on with our parent group and school council; Parents who show support when we contact them about their children; Parents who contact us to discuss issues or concerns; Parents that attend events and other evenings organised by the school. We are definitely the lucky ones.

We have a new building. A lot has happened with moving rooms and reallocations, but students and staff have shown great resilience and flexibility. The new building is now being used and we have already witnessed some effective learning, especially the cooking classes where we tasted delicious Baclava.

We have created unique programs for our students to apply and showcase their creativity. ACE independent generated some wonderful projects and we are hoping to extend this opportunity within other contexts of learning next year. We will see the birth of a new class where year 7, 8 and 9 students will collaboratively learn and challenge each other.

All in all, 2017 was a year to strive for excellence and we stepped up to the challenge! Awesome work everyone! Let's get ready for 2018!

# ENGLISH

Our Motto in English continues...English is all around us! It is an important axiom to remember for students and staff at KSC. When we focus on our literacy – across all subjects the quality of our writing and the pride we put into all our work, can only increase.

Public speaking competitions continue to be a draw card for those students with strong public speaking skills. This year saw three students enter the Legacy Junior Public Speaking Awards and they performed admirably for their first efforts at the competition. Morgan Anthony and Maddie Fletcher from Year 9, along with Tara Wilson from Year 7, all spoke brilliantly at the competition and were highly regarded by all judges. Later in the year, Joel Findlay, Connor Musslewhite, Eric Zubcic and Fraser Boys all competed in Lions Youth of the Year which is a combination of a 30 minute interview, written application and public speaking. It was a huge effort by all boys with Fraser Boys winning overall Lions Youth of the Year and Joel Findlay winning the public speaking section of the competition.

Two students successfully entered the ICAS English competition which tests students from around the nation. Aaliyah Trevethan from Year 7 received a credit which placed her in the top 13% of students in Australia while Ella Roberts placed in the top 7% of Year 9 students in Australia. Ella also won our KSC spelling competition this year, beating Daniel Green from Year 12 and Lachie Snooks from Year 11. Well done, Ella!

Many students also entered a range of writing and reading competitions throughout the year and it was great to see such enthusiasm for stories and poetry writing. It will certainly be an area that we will encourage in future years.

Throughout all English classes, we strive to develop our student's enjoyment and appreciation of Literature and hopefully, this gives them an interest in books and reading as they move away from their studies and into their adult lives. As a result, we hope they have the confidence to approach and tackle new forms of books and writing, since they were exposed to a range of literature during their school days. This year, students continued to study a wide range of novels, films, plays and short stories from all around the globe and from different time frames and cultures. Reading programs continued to be in place for junior students and text studies form a large part of the English curriculum at all year levels.

This year also saw quite a few exciting changes for the English curriculum at Korumburra Secondary College. With the introduction of the Victorian Curriculum, *Stars and Cars* at Year 7 and the *Acer EWrite* programs from Years 7 to 10, the English curriculum is constantly adapting to meet more of the challenges that our students will face in their future workplaces and in further education.

Sadly, at the end of the year we say goodbye to Mr Justin Wong who will be leaving us to teach in Melbourne and Mr Richard Morrison who will be returning to Trafalgar Secondary College. These two teachers have been an integral part of our College for the past 2 years and they will certainly be missed next year.

# MATHS

This year students in Years 7 and 10 have been utilising the online Mathematics' program, Mathspace. It integrates a fully functional e-textbook, with student work and ongoing assessments to provide an individual learning program focussed on the Victorian Curriculum. The success of any mathematics resource depends also on parental support on the home front. Encouragement of your child to discuss what and how they are learning is part of their successful learning journey, as is consistently allocating time for their daily reviewing of the work covered. The development of mathematical skills, like sporting skills, requires ongoing practice.

Students were encouraged to participate in a range of activities; including The University of New South Wales ICAS and the Mangahigh Maths Super Hero Challenge. The UNSW ICAS assessed students' problem-solving skills and the students who participate spanned over three-year levels with Riley Olden and Connor Murrell achieving at Credit, while Minh Hai Nguyen received a Distinction placing her in the top 15% of the Australia. The Super Hero Challenge provides students the opportunity to complete maths based tasks and games, while earning competition points for themselves and Korumburra Secondary College.

Of all the students who completed tasks and games, 10 of our students received medals for points they had successfully achieved. Of these students, four of these students earned a gold medal; Jade Butler, Corey Whelan, James Sage and Zac Gray. Again, well done to each of the students who received acknowledgements, as well as those students who participated.

Korumburra Secondary College has committed to the use of Mathspace for all Year 7 to 10 classes. It provides students with the opportunities to work at their own level, with Victorian Curriculum from Grade 3 all the way to VCE level mathematics. Being an online resource, students can also access this via the personal computers, tablets and mobile phones. Parents are also encouraged to register their details with their child's account, to assist with their child completing set tasks, revise previous work and encourage further development and growth.

Finally, we encourage all students to continue their study of mathematics for as long as possible and to the highest level of which they are capable. As a result, they will have many more options available to them when they complete their schooling. Mathematical skills together with skills in science, technology and engineering are becoming increasingly valuable in the world of work that awaits our students.

# HUMANITIES

It has been another year full of curiosity and wonder in Humanities at Korumburra Secondary College. Students explore the essential studies of History, Geography, Economics and Civics. These areas span the width and breadth of our complex, ever-changing world.

We offer rich, diverse units that teach the knowledge and skills outlined by the Victorian Curriculum. A great achievement for staff this year was the collegial development of Common Assessment Tasks (CATs) on Compass for the purposes of ongoing online reporting. Humanities staff worked hard to ensure the smooth transfer of tasks across to this new system. It proved an opportunity to revise, refine and remodel many of our assessments.

## YEAR 7 GEORGRAPHY EXCURSION:

During August, Year 7 students had the opportunity to put their geographical skills into practice. Students ventured to the Wonthaggi Desalination Plant, Eagle's Nest and the Inverloch Foreshore to investigate how the coastal landscapes have change. Students enjoyed the walk from the surf beach to Rainbow Park; they particularly enjoyed having to "swim through the river." Students were able to understand how waves create different coastal landscapes and also to understand the impact humans have on the natural landscape. A great day was had by all students and staff!

## YEAR 8 MEDIEVAL OPEN NIGHT:

A highlight was the History Open Night. Students shared the work they created on Medieval Europe with parents and friends. Student created stalls, displays, dioramas, weapons, food and other wonderful things that reflected their skills and understanding. Well done to all!

## NATIONAL HISTORY COMPETITION:

A variety of students from across years 7-10 (**Aaliyah Trevethan, Blake Webb, Poppy Clarke, Tara Wilson, Michael Beech, Brock Duve, Patrick Boys, Max Slinger, Ella Roberts, Andrea Axford, Kaylah Thomas, Morgan Anthony, Connor Murrell, Eric Zubcic and Zeth Austin**) took part in the annual History Competition. Special mention must go to Andrea and Ella (who received a distinction and high distinction, respectively).

## YEAR 10 COAL CREEK & INVERLOCH FIELDTRIPS.

As part of their Geography studies, Year 10s investigated the towns of Inverloch and Korumburra and completed a "Two Towns" comparative report. Students visited key sites in both places and researched the different aspects that make each town unique. Students conducted fieldwork observations at Eagle's Nest, Surf Beach and Coal Creek.

## A DUGONG ADVENTURE:

Mrs Anthony travelled to North Stradbroke Island QLD for a research trip to study seagrass habitats. Each day in the research boat, she travelled to shallow areas (depths of 4-8 metres) to collect sea grass samples. This meant diving down to the bottom, grabbing a handful of

seagrass and sand and bringing the sample back to the boat for analysis. The data was then recorded onto marine paper. During the trip Mrs Anthony connected back to classes at KSC so they could see the experiments in process and what it involved. Mrs Anthony saw all manner of sea life and the contributed to securing the future existence of the endangered Dugong.

# Science Spot!

The Science department has had another busy and successful year full of activities, events and excursions.

## THE BIG SCIENCE COMPETITION

Students competed in the Australian Science Innovations, Big Science Competition. This is an International competition that allows students to challenge themselves. Questions are aligned with the Australian Curriculum and test student's critical thinking and problem solving as well as their science knowledge.

Of the ten students that participated in the contest, two students were awarded High Distinctions, three students received Distinctions and one student was awarded a Credit.

High Distinctions were awarded to:- Joel Findlay & Andrea Axford.

Distinctions were awarded to:-Connor Murrell, Ella Roberts & Avalon Bass.

Credits were awarded to:- Eric Zubcic.

## NATIONAL SCIENCE WEEK

National Science Week gave a chance for our junior science classes to participate in some fun science activities. This year's theme was 'Future Earth'.

The Year 7 students entered some amazing displays in our 'Future Earth Competition' and judging was very difficult due to the very high standards. First Place was Aaliyah Trevethan, Ayla Fowler & Lily Lawrence. Second Place went to Christian Butler. Tied for Third Place were Poppy Clarke & Sophie McKenzie.

Year 8 students were exploring sound through experimentation. A highlight for some students was to make four way string phones. A little different to the mobile phones used today!

Year 9 students went to Korumburra Primary School and successfully ran a Science expo. Grade 1 and 2 students were treated to a range of engaging science activities that were designed and delivered by our students.

Science week exploded for the Year 10 students with a visit from a local explosives expert. We heard and watched some amazing BANGS, as water tubs were blown sky high. From all reports the students had a 'blast'.

## BURRA FOODS VISIT

Burra Foods engaged our year 7 students minds and provided an interactive presentation around how separation processes play a vital role in the products they produce. After a short talk it was all hands on as students turned cream into butter.

## ROBOTICS INCURSION

What a great introduction to Digital curriculum for Year 9 students!

Students were guided through hands-on challenges with robots and electronics – Lego Mindstorms. Complex concepts were introduced through practical application. The real world challenges engaged students to design, create, evaluate, modify, test and demonstrate their robots achieving the set tasks. Failure was the key to success.

## GTAC EXCURSION

Year 12 Biology students were immersed in the world of biotech as they examined case studies of positive change that have emerged through application of DNA technologies. They perform restriction digests and gel electrophoresis to determine if the gene for Green Fluorescent Protein (GFP) has been successfully inserted into a plasmid. They transform *E.coli* so that it will glow.

## ENGINEERS WITHOUT BORDERS HIGH SCHOOL INNOVATION CHALLENGE

Five students from Years 9 & 10 completed a three day Innovation Challenge at the University of Melbourne. They were exposed to multi-faceted engineering problems, testing their ingenuity in developing sustainable and feasible solutions. Problems explored the social, economic and environmental implications behind technological innovations and large-scale projects in the world.

## STEM SISTERS EXCURSION

‘If you can’t see it, you can’t be it!’

STEM Sisters aimed to increase the awareness of Year 9 girls from across Gippsland to opportunities that exist in STEM (Science, Technology, Engineering and Maths). Allowing our girls to make better informed choices to study STEM related subjects.

Guest speaker Justine Barrett was inspirational. She grew up in Yinnar and completed a Traineeship as a Scientific Officer at Loy Yang A and then went on to work at Monash/Federation University as a Laboratory Demonstrator. Justine is currently studying her Masters in Marine and Antarctic Science in Tasmania and has been chosen as one of 80 women with a science degree to take part in the second ‘Homeward Bound’ expedition to Antarctica.

**“New discoveries in Science will continue to create a thousand new frontiers for those who still would adventure.” Herbert Hoover**

# Korumburra Secondary College Welcomes Chinese Sister School to South Gippsland

Opportunities to showcase our local community are precious, and recently Korumburra Secondary College embraced the chance to share their local and surrounding communities with six visitors from their Sister School located in Changshu, China.

This is the second visit made by the sister school in as many years, and the hospitality shared by the schools community was inspiring. Students experienced local flora and fauna, breath taking scenery, various sporting matches, a tour of Burra Foods, local primary and secondary education, as well as sharing in the Australian way of life with a host family.

As our society becomes more global, it is experiences like this that connect our community to the rest of the world, providing our future generations with the opportunity to embrace cultural diversity and better understand the world beyond their own backyard.

**'Total Eclipse of the Heart'** was an original script written by Ms Reymers, with a radical 'throw back to the 80's' music score penned by Ms Handley, for K.S.C's long awaited return to School Production. An amazing cast, band and crew worked tirelessly for months to create the story of Mary: a young grandmother who is diagnosed with early onset dementia. Around 30 students and lots of staff collaborated to produce what was a fabulous three nights of performance. We all wish to thank our sponsors: Alzheimer's Victoria, Korumburra Secondary's Community Engagement Group and Koringal Women's Service Club for their support of our endeavours. The September Production launched Alzheimer's Awareness Month promoting awareness and prompting conversations in our community. We encourage all our students to continue with their passion for Performance Arts and trust you all had as much fun as we did working with you. You all absolutely **ROCKED!!!**

Ms Reymers  
and Ms Handley

# Broadening Horizons

Being a productive member of your community and developing lifelong learning skills for the 21<sup>st</sup> century workplace. What does this mean and how can students develop these? Broadening Horizons is an initiative for year 8 students to work in partnership with local organisations to understand how they can bring about positive changes in their community. Some of the investigations this year have included:

- How to promote careers in the council at Bass Coast Shire Council.
- How might shops relocating in Korumburra occur and the possible benefits.
- How might Burra Foods develop induction videos for new staff.
- Reviewing and exploring the camp opportunities at KSC.

The investigations allow students develop the work place skills including:

- Teamwork and collaboration.
- ICT skills, with Office 365, to collaborate and present.
- Communication skills and networking with members of the councils and organisations.
- Developing personal characteristics that students reflected in earlier ACE classes.

It is wonderful to see students engaged in long term projects that allowed them to take direction of their own learning. This all culminated in students presenting their finding to industry partnerships. Well done to all.

# Bogong Camp

Another awesome week up at the snow – we seemed to be blessed with the weather every time we go.

The journey started on Monday 7<sup>th</sup> August with a scenic route through Melbourne and a traffic jam at Mt Beauty as we waited for a land slide to be cleared on our way up the hill. The playlists compiled by Tahlia and Jess created lots of 80's singing from Mr Morrison and Mrs Matthews, including Darryl Braithwaite, Cold Chisel and other hits that really bought out the bogan in us all. After arriving, we kitted out in our cross country gear and checked into our rooms.....45cm of powder the night before ensured an awesome day ahead and you could feel the excitement in the air – and the chill ....

Cross Country skiing was a winter wonderland, snow as far as the eye could see. We laughed and played and jumped and sank, as the sun shone on what felt like the top of the world. We followed it up the following day with down hill skiing and wombats ramble became a favourite with everyone – a couple of kms of down hill gentle slopes to really build confidence.

An awesome trip of tired ski bunnies – congratulations to everyone who went outside their comfort zone, tried something new, learnt about sustainability and realised that we can think globally while making a difference locally.

# Year 9 Outdoor Education

Sailing at the Geelong Sailing School was a highlight for both groups in Year 9 Outdoor Environmental Studies. All students left the sailing school with an increased knowledge of the ocean and specifically sailing. The amount of effort and enjoyment was clear on the faces of all students who adapted to the changing weather conditions and cold temperatures. The lucky semester two group were fortunate enough to have a pod of dolphins swimming under and around the boats. So close we could hear them calling each other.

Both groups also practiced their camping skills with a sleep over on the schools grounds before heading off to Newhaven for an overnight camp, stand up paddling boarding and a 14km coastal walk along the coast at San Remo. The experience helped develop bushwalking skills and improve their cooking on Trangia stoves. We also visited the Penguin Parade to look at Ecotourism and how to support animals in the environment.

# CAREERS

What an amazing year it has been to share the pathways planning journey with so many of our students. Indeed, Careers is not just about finding a job, but chasing our dreams, realising our potential, making informed decisions and managing the kind of life we desire.

**Year 12**—We started the 2017 Year 12 program with a ‘Dare to Dream Day’ down at Inverloch RACV resort, where Luke came and spoke about choices to our students while past students shared their secrets of success. This was followed with individual counselling on a number of occasions, visits to Universities, speakers, jobs, newsletters, the Travelling Tertiary Information Service, Open Days, strategies, parent information nights and lots of questions and queries from our students. At the time of writing, VTAC Applications are in process Resumes and Letters of Application are being written, and the last of the revision, work and study is being undertaken. As stated often this year, your ATAR is not the measure of you, so do your best and take a deep breath. We look forward to sharing your news about the next steps on your journey.

**Year 11**—Our Year 11s have been part of University Outreach Program this year with their knowledge gained in Year 10 ACE and the visit last year to Federation University assisting them in planning for their future. A number of strategies are being used to consolidate career planning in preparation for 2018 including; researching choices, VTAC, resumes, job hunting techniques. The students attended the VCE and Career Expo at Caulfield Racecourse and had the opportunity for Individual Counselling as part of their Year 12 subject choices. Many students took advantage of Open Day experiences to prepare for Year 12 and beyond.

**Year 10**—Year 10 students were able to use Lardner Park Expo, work experience and classed based activities to find out about their pathway options. They attended Subject information evenings, and course counselling ensured our Year 10s can keep their options open as they continue to explore their preferred future. Students visited Federation University as part of the University Outreach Program and sat in on a ‘lecture’ about Sports Tourism.

**Year 9**—Class based exploration of ‘Who Am I’, ‘Where Am I Going’, ‘What Would I like For My Future’ took place as students were able to use this to inform elective choices for 2018. Students were involved in the University outreach program undertaking a range of activities designed to encourage regional students to think about University. This work follows students to the senior school so that we can ensure the journey of pathways planning is holistic.

**Year 8**—Through humanities, students participated in ‘The Real Game’ - learning all about the links between careers, education and life choices.

**Year 7**—Through ACE, students start to gain an understanding of who they are and the link between their interests and potential careers pathways in the future.

**Jodie Matthews**

# ADVANCE

**This year the Advance class was super organised and set off with their Duke of Edinburgh plans in full flight. We had students conducting activities with aged care, children's services, helping in Primary School classrooms, baking, making furniture, gardening, looking after animals, veterinary services, musical skills, collecting food for the homeless, visual communications, real estate, farming, plumbing, supporting the local Scout program, in addition to attending the gym for personal training programs.**

**We had a great adventure in the city for camp, with all students completing a number of navigation activities across the 3 days. It was great fun and many students learnt a lot about themselves as team players.**

# Student Support

The Integration students have had a fantastic year in 2017.

The Year 7's were very lucky on their camp at Grantville in Term 1, the weather was perfect. According to Fin "The Leap of Faith" was one of the best things on camp, "It was awesome". They also had an excursion to Inverloch and the Desalination Plant in Term 3.

The Year 8's went on camp to Merricks, however they were not so fortunate with the weather but still gave everything a go. A highlight was the tree climbing. The students were very encouraging and supportive of one another as they all reached the top one by one.

The Year 10's had the opportunity to go to Ayer's Rock at the end of Term 1 and into the school holidays. Holley really enjoyed this trip, she even managed to fit in a helicopter ride. The Year 10's have also attended a few local excursions this year, which has assisted them with their learning

All in all it has been a great year for the students both academically and socially. They are all looking forward to going up a year level in 2018.

## Canteen

The canteen has continued to provide a variety of healthy foods to the students and staff at very reasonably low prices.

The canteen appreciates the small group of parent volunteers who come in on a regular basis to assist with preparing foods and serving at recess and lunch time. Student and Parent helpers are very much appreciated for giving up their time to help.

For the 7<sup>th</sup> consecutive year, several members of our school staff lent a hand at the Strzelecki Lions Club Dairy Expo, serving breakfast to participants. Thank you to the Strzelecki Lions Club for allowing us to be a part of this fantastic event, and for making a donation towards the College

Thank you to everyone for supporting the canteen.

Linda & Maddy

This year has been positive for Year 7 and Year 8 LOTE (Mandarin Chinese).

Students have explored units such as festivals, food and family, and have immersed themselves in haggling, cooking and calligraphy. In Year 7 LOTE, students have made lanterns, puppets and dumplings to demonstrate their understanding of Chinese festivals. When our visitors from Changshu Foreign Language School arrived later in the year, the Year 7s also practiced their basic conversation skills and showed them how to play some Australian sports. In Year 8 LOTE, students have also trialled building a model house in the Chinese style. Special mention goes to Max Slinger and Emilee Row who created excellent houses fused with Australian and Chinese cultural differences. Our Year 8 students also had ample practice ordering their favourite Chinese dishes from Rainbow Palace, and were rewarded with meals throughout the year.

Earlier in the year, a small group of students became language assistants to the staff at Burra Foods. Staff members expressed an interest in learning Mandarin Chinese shortly after a Year 8 Broadening Horizons project in 2016. This year, students from Year 8 LOTE were involved in correcting their pronunciation and explaining etiquette. Of course, chopsticks races were also on the cards!

Special thanks goes to Ellie Stewart, Grace Matser, Zac Gray and Corey Whelan for their time and dedication to helping our local community.

This year has provided a solid foundation for learning Mandarin Chinese, and equipped students for engaging with China next year and beyond.

## Student Achievements

Alana Hanegraaf, (pictured on right) Year 12, won the Pierre de Coubertin Award for 2017. This is given to a student who displays the Olympic Spirit.

Max Slinger has been awarded the Australian Scout Medallion.

Haley Amor has been nominated for a South Gippsland Shire Youth Citizen Award.

Minh Hai Nguyen, Riley Olden & Connor Murrell all received awards in the UNSW ICAS Mathematics.

Jade Butler, Corey Whelan, James Sage & Zac Gray received gold in the Maths Super Hero Challenge.

Alex Blackmore & Stephanie Hough both received Silver in the Maths Super Hero Challenge, while Mitchell Rowe, Patrick Boys, Grace Matser & Joel Cuman received Bronze.

Morgan Anthony received the Japanese Year 9 Best Effort Award from the Victorian School of Languages.

Ella Roberts received the Academic Award in German Accelerated 1 from the Victorian School of Languages

Thanks to the students of VCAL Fabrication Enterprise 2017 (Tully Bernaldo, Reece Stark, Jack Boston, Chris Matser and Brendan Jury) for their amazing building skills and knowledge this year, in helping to construct two cubby houses. One cubby will be donated to Korumburra Primary School and the other will be raffled to help with costs for next year's VCAL projects. All building materials have been kindly donated and sponsored by the help of Capeview Mitre10 Leongatha. Micheal Suckling also generously supplied his time and knowledge to help with construction and delivery, Without Capeview Mitre10, and Micheal's help, this project would not have been possible.

# SWIMMING

Another brilliant house swimming carnival with lunchtime Karaoke from students and staff. Congratulations to HOWITT house (GOLD) on their first win in the pool since 2001, breaking Macdonald's five year winning streak.

Outstanding individual effort by Sophie McKenzie smashing J. Goad's record from 1973 in the U13 breaststroke by 5 seconds!!!! Also well done to Eric Zubcic who broke Dylan Muir's 2006 record, again in breaststroke.

Congratulations to the following age champions:

U13 boys – Kodie Walker - Howitt

U13 girls – Sophie McKenzie - Howitt

U14 boys – Blake Webb - Whitelaw

U14 girls – Mackenzie Findlay - Howitt

U15 boys - Oliver McLean – McDonald

U15 girls – Madeline Smith - Strzeleki

U16 boys – Eric Zubcic - Strzeleki

U16 girls – Casey Walker – Whitelaw

U17 boys – Nicholas McKenzie - Howitt

U17 girls – Tiana Heylen - Howitt

U21 boys – James Downie - Howitt

U21 girls – Alana Hanegraaf - Whitelaw

## Interschool swimming

A big day at the Korumburra Outdoor Pool for the interschool swimming. Congratulations and thank you to the students that represented our college. It was a great day of tough competition and sportsmanship between the secondary schools of South Gippsland. Thankyou you to the many volunteers (mostly retired KSC teachers) that give up their time to make these days happen. And to the parents who come to support. Well done to our boys for coming second in the boys aggregate and also to Eric Zubcic and Nick McKenzie who were age group champions.

# ATHLETICS

## House Aths

Again this year McDonald continued their winning streak at the House Athletics. Whitelaw were so close and led for most of the day, but just couldn't hang on during the relays. Winning house captains Molly Hopkins and Lachie Snooks, both of year 11 were fantastic leaders and look forward to possibly being the first house captains to defend their title when they are year 12 students in 2018. Highlights of the day were Paige Mitchard and Josh Hill being crowned the champions of champions, the fastest over 100m, with Paige winning this prize for the second year in a row. Also well done to Aaron Turton for breaking the only record on the day in long jump, knocking off Jordan Grabhams record from two years ago.

Congratulations to the following who are the individual champions for 2017

U13 Kodie Walker (Howitt) , Tameah Beddegenoodts (McDonald)

U14 Aaron Turton (Whitlaw), Paige Mitchard (Strzlecki)

U15 Oliver McLean (McDonald), Madeline Smith (Strzlecki)

U16 Jordan Grabham (Howitt), Seanan Trewin (McDonald)

U17 Joshua Hill (Whitelaw), Tiana Heylen (Howitt)

U21 Jacob Lesjak (Strzlecki) Alana Hanergraaf (Whitlaw)

## Interschool Aths

Congratulations to our interschool athletics team. While we didn't claim trophies, we had some terrific individual results, and most importantly, everyone competed to the best of their ability in true sporting style. And, we had fun. What an awesome group of students who represented our school in such a positive way.

## Gippsland Athletics

A very competitive day of racing at the Newborough Athletics .

## State Athletics

This year we had three students qualify for the state finals at Lakeside Drive in Albert Park. Ollie McLean in the 1500m, Jake Anthony for hurdles and Alex Blackmore for discus.

# Cross Country, Interschool & State

## School Cross Country

Our House Cross Country was held in our school grounds yet again. We are lucky enough to have school grounds that are big enough to hold such an event. Although due to the school rebuild the start line looked a little different. Again MacDonald were the winners and the following students won their events.

Female age group winners: Alana Hanegraaf, Tiana Heylen, Paige Mitchard, Tameah Beddegenoodts, Madeline Smith and Seanan Trewin.

Male age group winners: Ollie McLean, Jordan Grabham, Joshua Hill, Jacob Lesjak, Aaron Turton and Kobie Walker.

## Interschool cross country

Congratulations to our place getters today at the Interschool Cross Country. Also well done to the Under 14 girls who won the team event.

## Gippsland cross country

Great conditions for a fantastic day of racing at the Gippsland cross country finals at Lardner Park. There were a lot of impressive runners out there today and KSC students showed they are up there with the best in Gippsland. Congratulations to the under 14 girls who won the team event. All had an impressive run, with the first four members coming 3rd, 4th, 7th and 9th in a sea of light blue over the finish line. Seanan Trewin also had a great race crossing in third place. Other impressive results were Brad Monson 6th and Lachie Snooks 7th in the 17-20 age group, with still another year to complete at same age group. Maddie Smith also qualified for the state finals.

## State Cross Country

A freezing cold day at Bundoora mad it tough for all competitors. The Under 14 girls team came 5<sup>th</sup>, an amazing effort in such hard condidtions. We look forward to watching these runners over the coming years. Like the athletics the level of competition is a big jump from the Gippsland level to state. I am sure all students were amazed at the speed of the runners and learnt a lot.

# TEAM SPORTS

# Central Australia

This year 28 students from Year 10 and 11, Mrs Sorrell, Ms Parsons and Mr Smith headed to Central Australia. There were many highlights including: handling snakes and reptiles, viewing Uluru, Coober Pedy, Kata Tjuta (Olgas) and walking along the rim at Kings Canyon. A numbers of students also enjoyed helicopter flights, camel riding and quad biking. A great trip!

School separates  
your life from your  
home life.  
Morgan Anthony  
Year 9

School provides you  
with an escape.  
Shyanne Post Year 9

**What are your thoughts on the new building?**

"The classrooms look smaller but they look better than the old ones"

**What do you enjoy about school?**

"Minecraft at recess and lunchtime and electives",

**How are you finding school?**

"Boring, the best part about school is recess and lunch." - Neil Clark Year 7

I enjoy using the new school building facility, it is very good. I have loved all my classes this year and am eager for Year 10. I would be grateful for more music facilities and instruments though.  
Kaylah Thomas Year 9

The Library should be open all the time. I love the toasties at Breakfast Club.  
We all float here  
JC

**What are your thoughts on uniform?**

"We should be allowed to wear shorts, the dresses and skirts can get annoying"

**What are your thoughts about the teachers?**

"Some of them are really funny, they are really good at pushing us in the right direction."

**What are your thoughts on the new building?**

"Excited about the new classrooms." - Katie Cronin Year 7

I like the Art Subjects best. I like the creative side of Art.  
Amelia Hurst Year 9

I enjoy the Artistry Classes being:

- Visual Com
  - Studio Art
  - Art Classes
- Connor Musselwhite

This year we were very lucky to take part in the ACE Independent Program. In this program we learnt and extended our knowledge about a topic of our choice. We have thoroughly enjoyed this opportunity and would recommend it to any Year 9's in the coming years.  
Tyler & Maddie Year 9

School is a great place to make friends and learn new stuff.  
Hannah Veltri Year 9

Notes

I think that woodwork is most student's favourite subject, it's certainly my favourite!  
Beau Connell

SCHOOLS PRETTY BORING BUT THE NEW BUILDINGS ALRIGHT THOUGH.  
TAHLIA

KSC has a great Library, I enjoy spending time there..  
Chloe Clark Year 9

**WOODWORK  
IS MY  
FAVOURITE  
SUBJECT.**  
**DARCY**

The new  
building is cool.  
Jess.

Notes

I wish the school had  
more seating outside and  
more sheltered areas  
outside to go to when it's  
raining.

Mitchell M.

My favourite  
subjects are Home  
Eco and P.E.  
T.M.

Woodwork is probably  
the best subject around.  
Ethan

At KSC we have  
great teachers.  
A.B.

The new building and classrooms are really cool ...  
I enjoy Lunchtimes because I get to hang out with my friends  
and have time away from the classes.  
I would really like to have longer lunch times and shorter class  
time if possible.  
C.S.

School is good  
because there  
is a lot of  
opportunities.  
S.A.

We get to Program  
using a website  
Studio Code.  
J.C.

BEST TEACHER AT  
SCHOOL IS MR MORRISON  
AND THE  
COOLEST TEACHER IS  
WILSO!  
Lily

Mr Wilson  
is  
the best.  
Peter

I'M REALLY TIRED OF  
THE WET COLD  
WEATHER. IT'S NICE  
TO SIT IN THE SUN AT  
LUNCH-TIMES.  
S.C.

I like school because I  
see my friends.  
D.H.

## ABORIGINAL FOR A DAY: A CULTURAL INFUSION

This year the English and Humanities domains at Korumburra Secondary College facilitated a whole-school 'Indigenous experience' with a focus on the history and culture of Aboriginal and Torres Strait Islander people.

On August 2<sup>nd</sup> we warmly welcomed three members from the organisation Western Creation to KSC, for a "Cultural Infusion"; Big Al and his two sons, Azza and Tristan (aka 'Pancakes'). The day started with traditional face-painting which helped us get into the true spirit of the program and be "Aboriginal for a Day". Students then broke into three rotating workshops that covered storytelling, history and culture, Aboriginal dance and Art.

Our time together provided students with a unique opportunity to engage in the process of understanding, learning, reconciliation, respect and recognition of the world's oldest continuous living cultures. But it was also hugely enjoyable, very funny at times and highly educational.

By far most the most important thing to come out of this whole day incursion - as Al made us so aware of - was the idea that we must be proud of each other and tolerant of all people who are lucky enough to call themselves Australian.

A big thank you to Melissa Neill for organising this wonderful experience.

Lake Mulwala and the Murray River  
1st, 2nd and 3rd December - 2017

**YAMAHA**

includes four meals and a Cod Classic  
stubby holder!

Prizes to be won for biggest catches!

ENGEL A LEGEND IN RELIABILITY  
QUINTREX Quality Made Here

# VET

This year we had 23 students enrolled in VETis courses. Our students have been enrolled in a number of different courses from make up, animal studies, carpentry, electrotechnology, horticulture and many others. For the second year the South Gippsland Trade Skills Alliance held an open day for their 2018 courses. All our year 9's attended and many are planning on completing a VETis in 2018.

# Year 7

2017 has been an active and exciting one for our Year 7 students. The fun started with our school camp to Grantville Lodge in February where our students got to know each other better through participating in some outdoor adventure activities such as canoeing, hut building and completing a high ropes course. They were also given a crash course in karaoke from Mr Cronin. Students have been involved in a broad range of learning over the course of the year, from creating plaster fish in Art, baking muffins in home eco, animal classification in Science, responding to social issues in ACE, exploring Chinese history in Cultural Studies, to writing biographies in English; they have had a busy academic year.

We also had quite an athletic bunch of Year 7s this year, with numerous students representing our College in athletics, swimming and team sports. Sophie McKenzie had some outstanding individual success in club swimming and our Year 7 boys reached regional level in both basketball and netball. In the Performing arts arena, it was pleasing to see several Year 7 students participating in this year's College production, 'A Total Eclipse of the Heart.' We had Jean, Angel, Shannen, Poppy and Katie all involved in both performing and backstage roles. Many of our Year 7's also took part in the 'Turning the Tide' program run by the Phillip Island Nature Parks. This program looked at conservation issues at Phillip Island and then developed solutions to environmental issues within our school community; the impact of this program will be seen for years to come.

I would like to thank all year 7 students, their parents and teachers for their positive efforts this year. On behalf of the Year 7 students, I would especially like to thank the Year 7 Mentors: Mrs Henry, Ms Hunter, Mr Wong and Ms Hanley for their tireless work again this year.

I hope you all have a safe and restful Christmas!

Regards,  
Mr Churchill

# Year 7

# Year 8

# Year 8

2017 has been a year of exciting opportunities, excellent learning and fun for all year 8 students.

The ACE sessions saw students continue to lead both the college and the Gippsland region in the use of Office 365 to develop their collaborative skills that will be essential in their future work and learning. Their work on their Broadening Horizons investigations resulted in excellent partnerships and learning with both Bass Coast and South Gippsland Shire Councils and Burra Foods. Great resilience has been shown when dealing with the changes and challenges required to develop the technological skills needed for the 21<sup>st</sup> century. There have been many highlights throughout the year in all areas of their learning and school life.

The year 8 camp, to Merricks, saw students throw themselves into a whole range of activities, with snorkeling and surfing being favourites. Excellent organization skills were exhibited, along with growing independence. The tree climbing was an excellent metaphor for all students that needed to challenge themselves to reach new heights and overcome their fears. Congratulations to all year 8 students involved in college's first performance, 'Total Eclipse of the Heart'.

Year 8 attendance at the swimming and athletics was excellent, with fantastic performances from too many students to name, with many going on to further stages. Well done to Alex for making it to the State finals in shotput.

A big thanks to Miss Chen, Mr Santilli and Mr Wilson for their dedication as mentors to each class. A very special thanks goes to Mr Stalker for his commitment to the high quality mentorship of 8A in both their academic, social and emotional wellbeing. Mr Stalker's passion and expertise will be missed by the year 8 team and college. Above all, it has been fantastic to see students work towards developing a positive relationship with each other and their teachers, showing they are ready to move onto the new challenges of year 9.

# YEAR 9 WHAT A YEAR!!!

# Year 9

# YEAR 10

# Year 11

2017 has been a busy year for the majority of Year 11 students. Some students chose a hands on and practical pathway of VCAL whilst many others undertook the challenge of a Year 12 subject. A number of students also undertook VET courses and attended a TAFE or similar to undertake a course or participate in work placement.

As part of the student's pathways planning and as a compulsory part of the State Governments MIPs program, students travelled to the VCE and Careers Expo held at Caulfield Racecourse. Students accessed a range of public and private TAFES and universities. The Year 11 students found out careers information and participated in a range of seminars. The day was extremely informative and proved popular with the students.

In October, some Year 11 students were fortunate enough to visit the HMAS Cerberus training facility. Each year, the Navy hosts a Career Exploration Day for students of Gippsland to investigate and get hands on experience in the Navy/Defence Force. The focus is to engage and inform visitors of Navy's purpose, the role of Cerberus as a training facility and member of the community, and provide a view of what sailors do on a daily basis. The program was a fast paced tour of the base and training facilities; designed to offer secondary students firsthand knowledge of Navy careers, training and lifestyle. Students saw a variety of training facilities and demonstrations including Initial Recruit Training, Engineering School, Seamanship School, and Firefighting Training. Students ate lunch with the sailors in the Main Galley, and also visited their state of the art sports facilities.

The ACE learning Program continued again this year, focusing on what Year 11 said they needed more assistance with – Positive Self Talk, Resilience, Goal setting and Time Management. Students participated in each session with enthusiasm, and feedback was positive. A highlight of the program this year was attending the "Courage to Care" travelling exhibition in Traralgon. This excursion examined issues of prejudice, racism, intolerance and bullying, as well as standing up against injustice. A key theme of the exhibition is that each one of us can make a difference. Another highlight for the year was listening to Bec Slavin, talk about her life experiences as a recovered ICE addict.

Year 11 students also attended a driver education program - The RYDA Program is a one day out of school program, delivering practical road safety information targeting attitude and awareness of young drivers and their passengers. RYDA targets 16-18 year old students and includes six interactive sessions delivered to small student groups covering topics such as: hazard perception, distraction management, vehicle safety, stopping distance, fatigue and listening to a crash survivor about his experiences.

As part of the transition into Year 12, students attended a "Dare to Dream" day at RACV Inverloch. The day aimed for all our year 11 students to aspire to be the best of themselves, develop resilience and aim high for 2018. Students listened to Luke and Tess Holmes who spoke with the students on themes of respect and community. Luke is an ex-student of the school and a Senior Detective with the Victorian Police Force. Tess is a Criminal Lawyer and Prosecutor in Dandenong and equally as inspiring as she talks about creating the life you want to live. Another session focused on yoga and stress management and was run by Annabelle "The Yoga Specialist" from Inverloch. The Year 11's participated in a 'speed dating' exercise that focused on hearing the stories of our past students. The day finished with reflection and focusing on creating a united, resilient group of students who will respectfully work with each other, the teachers and the wider community to strive to be their personal best.

On the sporting field many students succeeded in a number of sports, such as netball and football, athletics and cross country running. Well done to all who participated, at the interschool, regional and state level representing KSC. Also, congratulations to students who succeeded outside of the school, pursuing their individual sporting interests.

Congratulations to students, parents and teachers of Year 11 on making it to the end of 2017!

# Year 11

# Year 12

After almost 13 years in the Secondary School System, Year 12 can appear to arrive very quickly and many students (and their parents) find themselves asking where the years went.

The same can be said for the speed at which Year 12 races by. It seems like yesterday that I was welcoming this cohort to their final year of school way back in early 2017 and now it is time to prepare to farewell them. Tempus Fugit!

It is a year of lasts, the last swimming sports, the last cross-country, the last school fete until finally it is; the last day. As part of their responsibilities, the Year 12 take a very active role in the whole school sports days. It is wonderful to see how the Year 12's embrace these 'Last time' events by their enthusiastic participation and organization of the other students, and this Year 12 group were no different in this to the Year 12's that preceded them.

Year 12, for the class of 2017, started in November 2016 with a new event on our calendar – "Dare to Dream". This day is designed to help our emerging Year 12 students set goals for themselves and to realise that nothing is impossible – if you want it, you can make it happen. This event was rapidly followed by the RYDA excursion at the end of the 2016 school year during head start.

From there the journey of year 12 takes its normal path. Of course there were times when we, their teachers, would have wished to have seen just a 'smidge' more application here and there, but with such a busy year both academically and socially, as many of the cohort turned 18 during the course of the year, sometimes the pace just slackened off a just that little bit. The challenge of finding the work/life balance starts early these days.

Our Year 12 Camp for 2017 took place at the end of Term 2. The VCE students spent this time visiting a variety of tertiary institutions. Here they became reinvigorated to become more focused on their studies in order to ease the progression from school into the next phase of their lives. The VCAL students who attended this camp explored social diversity in the community as part of their personal development and literacy programmes.

In Term 3, the students run their annual fete which helps them finance their final day excursion. The class of 2017 ran a very successful and fun day. However they did not manage to beat the teachers in the annual teacher/student Mat Ball match!

Term 4 is short, but the Year 12's managed to complete their final school work and organise their final day celebrations. It is interesting to see the personality changes that take place under cover of the camouflage of fancy dress. Our final day is capped off with a game of laser skirmish in the country side.

For the VCE students, the next big event was the exams and for the VCALs the world of work awaits.

I commend everyone in Year 12 for the terrific efforts they have put in to ensure they have achieved their very best and to thank the students for their maturity, leadership, contribution to the College Community and for the care and support they showed to each other.

In particular, I would like to mention our School Leaders, Fraser Boys, Deanna Chiavaroli, Alanna Hanegraaf, and Jacob Lesjak who took their rights and responsibilities very seriously and never failed to do what was asked of them with grace and maturity.

We wish each and every one of the Year 12 class of 2017 success and joy in what the future holds for them.

# Year 12

**Name:** Tully Bernaldo  
**Nickname:** Don't have one  
**Occupation:** Landscaper  
**Likely Outcome:** Landscaper  
**I'll miss:** Annoying the teachers  
**Remembered for:** Annoying Mr McGrath  
**In 5 years:** Fully licenced Landscaper

**Name:** Fraser Boys  
**Nickname:** Father of Rap  
**Occupation:** Door to door Mormon  
**Likely Outcome:** Queen of Israel  
**I'll miss:** Josh Hill  
**Remembered for:** an efficient rice harvester  
**In 5 Years:** Mentoring Educating Teaching Hard-Work

**Name:** Nicole Cain  
**Nickname:**  
**Occupation:** Receptionist  
**Likely Outcome:** Working in retail  
**I'll miss:** Seeing people everyday  
**Remembered for:** My sassy & dumb personality  
**In 5 Years:** Hopefully working a stable job & fulfilling my future

**Name:** Deanna Chiavaroli  
**Nickname:** Dee  
**Occupation:** Park Ranger  
**Likely Outcome:** Australian Prime Minister  
**I'll miss:** Mum making lunch  
**Remembered for:** Being Bossy  
**In 5 Years:** Living at home with 5 dogs, doing occasional paper run & living off mum's food

**Name:** Courtney Clark  
**Nickname:** Courtz  
**Occupation:** Childcare Worker & Photographer  
**Likely Outcome:** Childcare Worker  
**I'll miss:** Miss Burdett's Viscom classes & school routine  
**Remembered for:** Giving everything a go

**Name:** William Downie  
**Nickname:**  
**Occupation:** Firefighter  
**Likely Outcome:** Firefighter or Army  
**I'll miss:** Free Periods  
**Remembered for:** Not much  
**In 5 Years:** Working, Making money

**Name:** Calem Dunks  
**Nickname:** Beetlejuice Green  
**Occupation:** Federal Police  
**Likely Outcome:** Maccas  
**I'll miss:** The carpet  
**Remembered for:** The dankness I brought to the normies at this school  
**In 5 Years:** Still at Mickey Dee's

**Name:** Alexandra Evans  
**Nickname:** Alex  
**Occupation:** Detective  
**Likely Outcome:** Something to do with law  
**I'll miss:** getting snacks every time I leave class  
**Remembered for:** going to school for only 3 ½ years instead of 13  
**In 5 Years:** Smoothing a time series plots using medians

**Name:** Kevin Farley  
**Nickname:** Kev  
**Occupation:** Cabinet Maker  
**Likely Outcome:** Cabinet Maker  
**I'll miss:** Seeing friends  
**Remembered for:**  
**In 5 Years:** Cabinet Making

**Name:** Jack Fowles  
**Nickname:** Fowlsy  
**Occupation:** Linesman  
**Likely Outcome:** BP Console Operator  
**I'll miss:** Talking about teachers behind their backs  
**Remembered for:** For not remem ... wait, what was the question again  
**In 5 Years:** Stay at home son

**Name:** Peter Gillin  
**Nickname:** Salmon  
**Occupation:** Heavy Machinery Mechanic  
**Likely Outcome:** Automotive Mechanics  
**I'll miss:** Recess & Lunchtimes  
**Remembered for:** Hopefully I wont be remembered  
**In 5 Years:** Finishing my Apprenticeship

**Name:** Daniel Green  
**Nickname:** Danny  
**Occupation:** Neuroscientist  
**Likely Outcome:** Neurosis victim (°°°°°°)  
**I'll miss:** The teachers  
**Remembered for:** Wearing Gloves  
**In 5 Years:** ... School
